

Marathon M6V200FT (M-FT Series Battery)

Additional information

Brand	Marathon
Technology	AGM
Volts	6
Cap [C20 Ah]	200
Terminal Type	FM6
Length	361mm
Width	132 mm
Weight	34 kg

Designed for durability in telecommunications and electric utility applications, the Marathon M-FT series provides high performance and reliability in medium and long-duration discharge applications. The location of the terminals on the front (vs. the top) of the battery greatly facilitates the installation and maintenance of the product when placed in a cabinet enclosure or on a standard relay rack tray.

Your benefits when you choose the Marathon M-FT series:

- Improved Total Cost of Ownership – due to a very long design life: 15 years
- Front terminal design – easy access for faster installation and maintenance
- Durable polypropylene casing (available as flame retardant) – maintains structural integrity in higher operating temperatures
- Short recharging time – high availability
- Optimal energy density – saves floor space
- Completely recyclable – low CO2 footprint

Why Battery Service Hub?

We keep your business on the move, from maintenance to installation when you choose to order from Battery Service Hub you will find we are committed to providing the best value; saving you time and money, without ever compromising on safety.

For sales & service throughout the UK & Ireland, please contact Battery Service Hub Ltd
